bringing the best of european quality to your home

Sienna

2 TWO YEAR WARRANTY

www.eurostylegroup.com.au

Euro Appliances Sienna Series - where Italian design and quality come together in a range perfect for Australian lifestyles. With home grown service and knowledge to guarantee satisfaction.

Euro Appliances bring European quality into your kitchen backed by Euro's associate manufacturers in northern Italy who have been producing premium cooking products for over 50 years.
The Euro Appliances team has conducted extensive research over the past 12 months working with our network of nationwide retail partners and we are proud to deliver the latest range of quality European cooking appliances - the Sienna Series - using the latest design features and innovative technology.

**What do we offer?**
The Sienna Series provides a total kitchen solution - Euro ovens and cooktops will cook the perfect meal, Euro dishwashers will take care of the washing up.

**Two year warranty.**
Our Sienna Series is backed with a two year warranty. Contact us from anywhere in Australia on our toll free number 1800 440 335, for all your service needs.

2 TWO YEAR WARRANTY

**Where can you find our products?**
Simply call our Customer Care Centre on 1800 440 335 to locate a retailer near you.

**Inspired by the hill town of Tuscany, where good food and cooking is an obsession.**

Sienna euro

## Oven symbols explained.

**Full Grill**
The perfect option for quick grilling. Toast your favourite meals or finish off the tops of your recipes.

**Half Grill**
Half grilling allows you to toast / brown all your favourite recipes in a smaller area.

**Bottom Element**
This function cooks with the base element only, ideal for browning from the base.

**Oven Light**
The oven light will automatically turn on once any function is selected.

**Conventional**
Using only top and bottom elements and providing a traditional cooking style, this function is suitable for slow cooking cakes and delicate pastries.

**Defrost**
In defrost mode, no heating elements are used. Only the fan is activated to circulate air inside the oven for defrosting and not cooking the food.

**Top Element**
The ideal function for soft browning, the temperature can be controlled to achieve the perfect heat.

**Fan Forced**
For the ultimate roast or batch of pastries, circular heating element and fan deliver even heat for even cooking results.

**Fan, Rear & Top Elements**
This cooking mode is suitable for cakes in general and for warming up dishes before serving.

**Top & Grill Element***
Grill and Top bake element operate together for intense cooking, best suited to roasts.

**Thermowave Fan Assisted**
To have a rapid and even cooking covering both fast and delicate recipes using both upper and lower heating elements plus fan.

**Fan & Bottom Element**
Great for pizza cooking, the fan and bottom element create the perfect cooking function for base cooked food.

**Top Element & Fan**
This cooking mode is suitable for cakes in general and for warming up dishes before serving.

**Fan Grill**
This is the best function for a fast grill or to roast thick pieces of meat using both heating elements and the fan.

**Gas Oven**
Quick efficient gas cooking using the full gas oven.

**Gas Grill**
Fast gas grilling to toast, brown or finish off recipes.

**Pizza Function**
This kind of cooking is ideal for pizza and vegetable dishes.
